

# Cultural Capital

- Cultural capital is about giving children the best possible start to their early education and future success. As part of making a judgement about the quality of education, inspectors will consider how well leaders use the EYFS curriculum (educational programmes) to enhance the experience and opportunities available to children, particularly the most disadvantaged.
- What you know about your children (the experiences children arrive with) to decide they need to learn and develop to prepare them for their future success. OFSTED inspect in line with the principles and requirements of the EYFS to find out what it is like for a child at your setting
